

## ESA/ Love INC Project Needs

As the ministry and mission of ESA/Love INC moves forward we are faced with very specific needs that must be met before we can grow or extend the ministry to people. This is life of a FAITH ministry, we trust God for his provision. Below we have listed some of these very specific needs. If you are able to help with one through providing a gift or skill we would greatly appreciate.

These are not in priority order but are all current needs.

### TECHNOLOGY

- |   | <b>Estimated cost</b> |
|---|-----------------------|
| 1. A new display for table top shows and church mission's days. We have had the old one for 15 years, time for a new face.  | <b>\$500</b>          |
| 2. We are developing a state of the art web site. Our hope is to have a very user friendly tool for people to get information, find places to serve and to provide places for those who need help 24/7. We have raised funds to get our site to a certain level but need additional funds for future development and maintenance. | <b>\$5,000</b>        |
| 3. Because ESA does various ministry presentations, a DVD projector is needed.  | <b>\$1,000</b>        |
| 4. We need a volunteer computer tech support person or the funds to offset the cost we currently have.  | <b>\$500 mo</b>       |
| 5. We must start the process of making the Love INC Clearinghouse electronic. We are currently hand transposing each and every client's intake form, 52 questions x over 7500 clients each year.  | <b>\$3,000</b>        |

### TRAINING/CONFERENCES

- |   |                         |
|---|-------------------------|
| 6. ESA is committed to constantly expanding our staff's skills, knowledge, and networking with training and conferences, both here in Fresno and across the U.S. Each year our staff goes to specific conferences or classes to accomplish this goal. | <b>\$6,000 per year</b> |
|---|-------------------------|

### PUBLICATIONS

- |   |                            |
|---|----------------------------|
| 7. The ESA newsletter is a quarterly publication. We need underwriters or donations to cover the printing and mailing cost. | <b>\$2,500 per quarter</b> |
|---|----------------------------|

### MINISTRY DEVELOPMENT

- |  |                          |
|--|--------------------------|
| 8. We have developed a Hispanic ministry titled Collaboration of Hispanic Evangelicals of the Valley-CHEV. It has been growing since 2005 but we need additional funds to grow this ministry further. ESA/CHEV hosts two large teaching conferences per year and helps to support poor Hispanic pastors in rural communities through scholarships.   | <b>\$10,000 per year</b> |
| 9. ESA is always developing and assisting other ministries to grow and strengthen. The following are the focus ministries we need funding for now:<br>a. Loving Our Communities to Christ – LC2C is a national initiative to call "The whole church to reach the whole city with the whole Gospel." ESA has been apart of this movement for the last three years and is now pulling Christian leaders together to share the vision with. | <b>\$20,000 per year</b> |
| b. Developing a Relational ministry to compliment the current Love INC Clearinghouse has been on our hearts for several years. This new adventure will enhance the Love INC delivery of services by including long term "relational" ways that people can get help and the church can give help.   | <b>\$14,000 per year</b> |
| c. ESA was asked to provide leadership for the Central Valley Winning Our World through Jesus and Music - WOW JAM community outreaches. The results of this ministry are astonishing. In 2008 14,000 people heard the gospel, 1474 received Christ, 47 churches participated and 1200 volunteers helped. Funds are needed to expand this exciting partnership in the future.   | <b>\$11,000 per year</b> |
